

Student Tuition Assistance Riverview SDA Church

It is the desire of the members of the Riverview SDA Church that each student who wishes to attend a Seventh-day Adventist operated school is able to do so. It is realized that family crises and other circumstances can cause temporary financial hardships. The following policies are designed to facilitate requests to the Student Tuition Assistance Committee.

Application for the school year must be made by July 31 to be considered for registration. Late applications will not be considered until the following month. Applications may be obtained at the church office, and may be returned to the pastor, or the Student Tuition Assistance Committee chairman. Applications will be considered individually on a first come basis. If a need arises during the school year, applications will be considered, as funds are available.

Payments to the school will not be made on accounts for which the committee has not received an application. Payments will not be made for months prior to the receipt of the application.

The Student Tuition Assistance Committee will determine amounts to be subsidized up to a maximum of 95% of monthly tuition and entrance fees. The family or other sources must provide the remainder. Family co-payments must be paid on time to the school. No church payment will be made unless and until the school has received the previous month's co-payment. If co-payment is not paid in full, the church may make payment proportionate to the amount of co-payment through the end of the Fiscal Year.

Preference will be given to families who are regularly attending members of the Riverview SDA Church.

If assistance has been awarded in the past, the applicant must complete the Financial Peace University course either in person or online (<https://www.ramseysolutions.com/ramseyplus/financial-peace?snid=products.pay-off-debt-and-build-wealth.financial-peace-university>) prior to approval for additional financial assistance.

No individual committee member may commit or promise funds. The committee must make all monetary decisions as a group.

When available funds have run out, the committee has the option to make public appeals for additional funding.
